

**As Victoria struggles with COVID-19
A virus that is fast spreading
We must all come together
To do the right thing**

**Mask up people it won't be long
For Coronavirus will soon be gone
The passing away of our vulnerable
We will NO longer mourn**

**Medical staff we cannot thank you enough
For the care you've given in times so rough
If it wasn't for you what would our plight be?
We therefore salute you on bended knee**

**To those who've lost loved ones,
We want you to know
And that you are never alone
All Victorians share your pain & sorrow ☹️**

**Victory comes to those who stay strong
Let's come together where we belong
To this beautiful city that ranks No.1
The battle we fight will surely be won!!**
